Agenda 2 To acknowledge the Annual report for fiscal year 2014

The report on the Company's operating result in the year 2014 has been prepared for the period ended December 31, 2014.

The board of directors deems the report contains sufficient information and it truly reflects the Company's performance for the year ending December 31, 2014 that it's approved by the Annual Report. Invited Mr.Noppadon Tansalarak, Chief Executive Officer, summarize the performance of 2014.

Mr.Noppadon Tansalarak, CEO : Summarized the performance of 2014 as follows:

During 2014, the Company had major changes and developments as follows:

- 1.Quarter 2/2014, VGI Global Media Public Co., Ltd becomes a shareholder, holding 24.43% of the total shares.
- 2.Quarter 3/2014, the Company had the following events;
 - Changed in the par value (PAR) from the original price 1.00 Baht per share to 0.10 Baht per share as the new price.
 - Issuance of share warrants of Master Ad Company Limited (PLC) (MACO-W1).
 - Master and More Co., Ltd. (subsidiary) invested to purchase the ordinary shares of Open Play Co., Ltd., which operates small size media in 147 PTT gas stations (Jiffy) nationwide covering 22 provinces of the 300-point installations. The total advertising space were about 1,800 square meters which tourists were the major target.
- 3.Quarter 4/2014, VGI Global Media Public Co., Ltd. ("VGI") was appointed as the agency selling the small size media installed on the streets (Street Furniture).
- 4.An additional event from last year, there was a contract signed with the Golden Sun in Vietnam as our agency to sell the advertising to mainly the airport besides TDI of India airport.

An overview of the Company in 2014, MACO also highlighted in the large media such as Billboards including small and medium media and in Non MACO Space section. The overall

media composed of 383 Billboard, 555 Street Furniture and 212 Transits with the total space of 80,000 square meters whereas our customer base had maintained well enough. The large advertising was considered to be the majority product of the Company because it could generate most revenue for the company. In this year, we had new customer such as, the biggest soft drink Company with more additional 40 mini billboards and 100 city vision (Flyover) as well. We had tried to build customer network nationwide and more focus on M-Network to respond to customer's needs, both in terms of coverage and a variety of target groups.

Non MACO Space Event was mainly focus on event organizing and we had held the event at Ranong Province. We had tried to focus on this section because we had readiness both the team and resources that could serve our customer's needs. We had not only used our media in hand to support all events, but we also focused on our core business which was attached to MACO Space. Last year, the Company won the award continuously such as Thailand ICT Excellence Awards 2013 from the development of software designed for saving expenditures which was the software specialization of our business and developed by the MACO team. Moreover, we won award of the Outstanding Entrepreneurship Awards (APEA 2014) and honorable mentioned on Transparency in 2013 from Office of the National Anti-Corruption Commission whereas CG (Corporate Governance) was another matter that the Company and the board of directors is concerned.

In 2015, the Company plans to invest as same as the previous year and will focus on a matter we are specialized. We have planned to increase revenue from the expansion of the primary media, add new media and create new projects by seeking new concessions from the public and private sectors, both domestic and international. In Thailand, we are trying to build the network both in the area of MACO and its allies. This year, the Company will increase 20,000 square meters more and at the end of 2015 we will have an advertising space of 80,000 square meters. And just only the first quarter, our team has reached 10,400 square meters already.

We attempt to create new form of media as well as expand further division in the M & A both in terms of administration, selling or shareholding. We will study in the issue of risk management primarily to ensure that all investment can serve shareholder's requirements in terms of profits and dividends management. We are studying about the international market at present, but the objection is a mismatch of pricing or some risks which are quite difficult to manage. Within one year, we have set the goal that we will be able to expand the investment in at least 2 countries in AEC. On the other hand, Board of Directors has approved a joint venture in Malaysia and MACO will hold 40% of the total share and the authorized capital is 5 million Baht. The expected annual revenue is approximately 36 million Baht. This year, we set the investment goals of 500 million Baht in the matter of expanding the primary media, finding new media and creating M & A. The target revenue is

set at 900 million Baht. In 2015, we will invest in our main Medias; 89% for Billboard, Street Furniture and Transit and approximately 11% for Non MACO Space.

Chairman: Chairman invited the shareholders for inquiries. The shareholders had some questions as detailed below.

A shareholder: Representative of the Thai Investors Association (Mr. Virat Kosonwathawong).

Practical allies of the privates sector in the anti-corruption. The anti-corruption is very important Thai society at present because the hidden and implicit costs affect corporate profits and shareholder's dividends. From the auditing, the Company has not joined the program. This project was initiated by the Thai Institute of Directors that has invited companies in the capital market to participate. I would ask whether the Company has the policy to participate or not, and when.

Mr.Noppadon Tansalarak, CEO:

The previous year, we received an honorable mention on Transparency from Office of the National Anti-Corruption Commission. Overall, we are cooperating with The Office of the Securities and Exchange Commission or any associations have requested our cooperation and some of us have joined the board. Today, we are invited by many associations to participate in various activities. We will consider that how much we can support or collaborate with each association that invites us. For what you have said, we have already joined this project and also our Board of Directors as well. MACO also emphasizes on the internal audit and hires an internal auditor. We believe that MACO has the CG Rate at 4-5 stars and you would see MACO to join that project very soon.

A shareholder: Mr. Thiti Jarikasem

Investment in Malaysia has been forecasted for the revenue at 36 million Baht, is that estimated by the 40% MACO investment of the total share or 100% total revenue?

Mr. Noppadon Tansalarak, CEO:

The 36 million Baht of revenue is generated from the new company. It is the annual value of the projects that we have invested. If we are holding 40%, we will get 40% of the 36 million Baht.

A shareholder: Mr. Thiti Jarikasem

I would like to ask about the investment as MACO as a sales agent for the India and Vietnam airports, how about the progress of those investments and the cost of investment cost, or there is no cost because MACO is just only an agent?

Mr. Noppadon Tansalarak, CEO:

For the India and Vietnam airports, it is similar to R & D or one of the research works. After we signed the contract with both parties, we had found that the procedure of sales document, sales process or pricing method is totally different. Therefore, we have to say honestly that we have not yet sold. The reason is that, if we sell advertising in Thailand, the products should be Thai products which will be sold or advertised in Vietnam or India. But when these products have contacted the advertiser over there by themselves, they get the cheaper rate than we offered. So, we have to study for this case if we would like to invest with them. And this is a good aspect to learn how to invest overseas, how we set the price or some conditions that are determined. That's why we chose Malaysia because Malaysia is very similar to us. Selling or working process is not too different and no need to change much. Then, our team could learn that what we are going to prepare before investing in Vietnam or India. Because we are only agent, therefore there is no cost incurred.

A Shareholder: Mr. Thiti Jarikasem.

Is the growth potential of billboard in Malaysia more or less if compared with Thailand, and in the view of the Executive and local Partner, is Malaysia a major player in the advertising market?

Mr. Noppadon Tansalarak, CEO:

Today, billboards in Thailand are more than Malaysia. The difference is that billboards in Thailand are mostly in private area. While Malaysia billboards are mainly on the concession area. The growth potential is quite well because in case that some concessions are about to reach the due date, then we can offer the bid. What we have done is likely trying to guide local partners to understand where the areas are. The local Partners do not own media like MACO but since they are in the advertising business they understand the media type and have their own customers. Therefore, the risk is reduced subsequently.

A shareholder: Mrs. Suwanuch Charoensawadpong

Feedback on the Agenda 2: the sentence "the Board of Directors acknowledged the 2014 Annual Report", the meaning of the sentence is so wide and I do not understand what is that report. Actually, this agenda should report the operating results of the Company for the shareholders' acknowledgement. My suggestion is that the agenda should be: to acknowledge the results of operations of the Company for the year 2014 which will be clearer and easy to understand.

For the question, I already learned that last year the Company has won numerous awards. However, the report has shown the decrease revenue in an amount of 100 million Baht. What is the major factor contributing to the decrease in revenue and profit and when will the revenue and profit increase?

Mr. Noppadon Tansalarak, CEO:

For the second agenda, changing the word to acknowledge the results of operation is fine. The operation results, as we have reported every year are the expansion of our business or new projects or concessions, bringing new technology into the old area to generate more revenue, or even finding new partners. Any project needs to be studied on the worth of the investment. If there is a high risk, it will take lower margins. We are very careful about this issue. For multiple projects which will be conducted in the future, if the number of revenue is not clear, the investment will slow down. We mainly focus on the return and operation results, especially return of dividend. For several projects, we could not run and do not even start because we realize that we will lose money and waste time due to the risk management as well.

A shareholder: Mr. Somjane Suksripanich

About the area which increased to 10,000 square meters, is it all billboards or not?

Mr. Noppadon Tansalarak, CEO:

Yes, they are all billboards.

Chairman: Since this was the agenda for acknowledgement, no resolution was made. If there was no further question, the secretary then would proceed to the next agenda.

Company Secretary:

Agenda 3 To acknowledge the interim dividend payment.

Purpose and reason: As per the Public Limited Companies Act B.E. 2535 and the company's articles of association, the Board of Directors may declare and pay interim dividend periodically if the profit are warranted. The Board must report this payment to the shareholders at the next shareholders' meeting. The Board of Directors Meeting No. 3/2014 held on August 1, 2014, resolved to approve the interim dividend in cash for the six months from the operating result during January 1, 2014 to June 30, 2014 and retained earnings. The dividend was paid at the rate of Baht 0.25 per share for ordinary share of 300,896,950 shares at the totaling of Baht 75,224,237.50 the payment of such dividends was made on August 29, 2014.

Chairman: Inviting the shareholders for inquiries. No one inquired so. Since this is the agenda on acknowledgement of the payment of interim dividends, no resolution is made.

Company Secretary:

MACO Space generated revenues of 545 million Baht, divided into Billboard 61%, Street Furniture 36% and Transit 3%. While Non MACO Space generated revenue of 77 million Baht, divided into Made to Order 57% and Event 14%. The total revenue in 2014 was 622 million Baht, net profit 133 million Baht, the statement of financial position showed the current assets of 551 million Baht, fixed assets 289 million, current liabilities of Baht 137 million, non-current liabilities 29 million Baht and shareholders' equity of 675 million Baht. For the making fee of the Board of Directors will be compared with businesses in SEC. The making fee is paid for independent directors only. Correlation is comparable by type of industry, business, revenue, and profitability which closely similar to us. What the industry pays is what we use it as a basis. For directors' remuneration, we pay only meeting fees to the Board of Directors.

A shareholder: Mrs. Suwanuch Charoensawadpong

Why the audit fee is increasing every year? Are there any negotiation? Why the expenses have increased while the revenues decreased?

Ms. Tamonwan Narintavanich:

From the negotiation with Price Water House, the audit fee has been adjusted according to increased inflation rate. Nowadays, the auditor's work is quite difficult because SEC is more strictly. The audit fee which proposed to the committee is not exceeding the inflation rate, and then it is acceptable for us.

Agenda 9 Other matters (if any)

-None -

There are no other matters to be proposed to the shareholders for consideration. Chairman offered an opportunity for shareholders to ask.

A shareholder: Mr. Somjane Suksripanich

Due to the lessons learnt from the previous year, the company's revenue and profit decreased considerably. What is the cause of problem and what will happen in terms of the market situation?

Mr. Noppadon Tansalarak, CEO:

Our business is to find more advertising areas. In 2014, one problem is the growth of the city which makes some space missing. Since many plots of land were sold by land owners and availability of new space's size are similar to the old one. For the auction area, the Company will see the value of investments that are worth the investment or not. If a project with high investment fund and high risk, we have to consider that are worth for investment or not. Last year, we had invested in Flyover 2 most and had some investment in billboard advertising. This year, we will create more space and we believe that several projects will be prepared to meet more customers' needs. But I would like to inform that we will mainly verify the risk first. If the risk is too high, the investment will be slow down. Today's market conditions look quite bad, such as Automobile business, the huge revenue was lost. But our business is one of buying opportunity business. If compared with the property, it is like occupying the land. Sometimes if the investment is necessary, we will

invest, but must be sure for the opportunity in the 2-3 years. So we have to invest to make more space, but in the same time we must be aware of the risk.

A shareholder: Mr. Somejane Suksripanich

In terms of 900 million Baht, it is the consolidation balance, how much confidence the management team has? Moreover, since Street Furniture is one of Master and More business, I would like to know the revenue in 2014 and earnings of billboards as well.

Mr. Noppadon Tansalarak, CEO:

We make several models in this case; model of 900 million Baht is a neutral one. The numbers with hard effect is revenues from concessions and merger. If our plan succeeds, it may be earn more than 900 million Baht. Since we were evaluated the feasibility, because we actually want to make it real.

Revenue of Master and More in 2014 is approximately 200 million Baht. But this year, our expenses are increased from Flyover 2 and revenues of Billboard seem to be around 300 million Baht.

A shareholder: Mr. Worapot

Could I ask about the progress of the investment of merging advertising companies in other provinces? Does the Company have any plan to buy more billboards in upcountry or not?

Mr.Noppadon Tansalarak, CEO:

The projects to invest in the provinces have been abolished already. Since there is a risk of Land rights. For billboards in upcountry, some spaces will come from buying more billboards while some billboards are supported by the allies.

A shareholder: Mr. Worapot

When we will be able to recognize revenue from concessions and how much would it effect on revenues in 2015?

Mr. Noppadon Tansalarak, CEO:

Revenue from concessions is not included in the target of 900 million Baht in 2015. Because the concession need more investment. However, if the project can be completed faster than scheduled, the revenue will be recognized as in the quarter 4/2015. But if not, it will be recognized as revenue in 2016.

Inviting for more inquiries. Since there was none, the Chairman thanked the shareholders and closed the meeting.
